PHOENIX

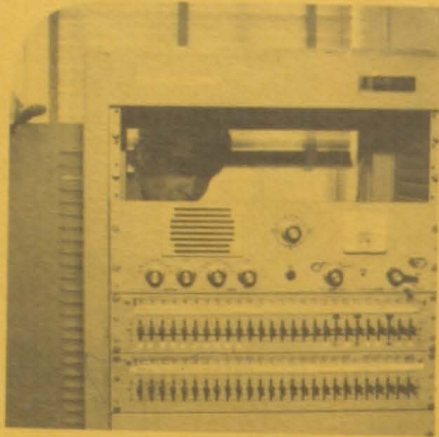

PHOENIX

University High School
Newark, New Jersey

1981

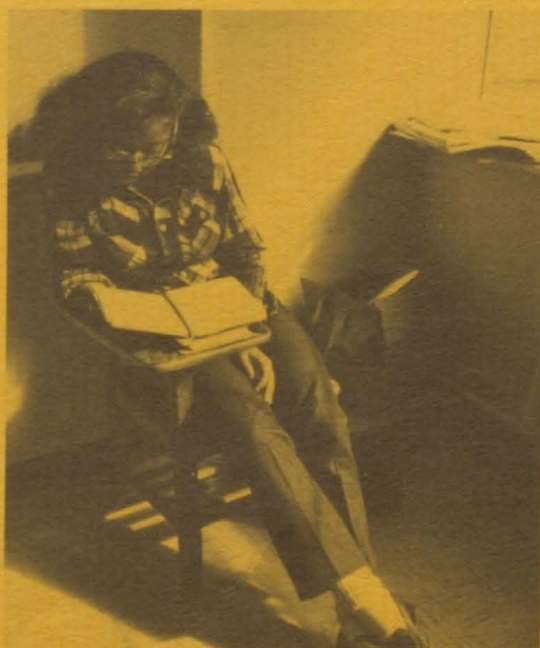

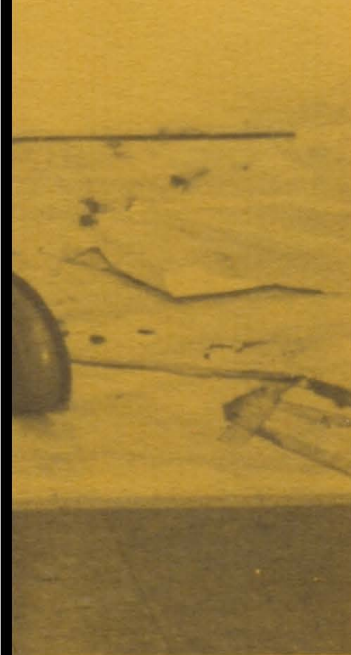

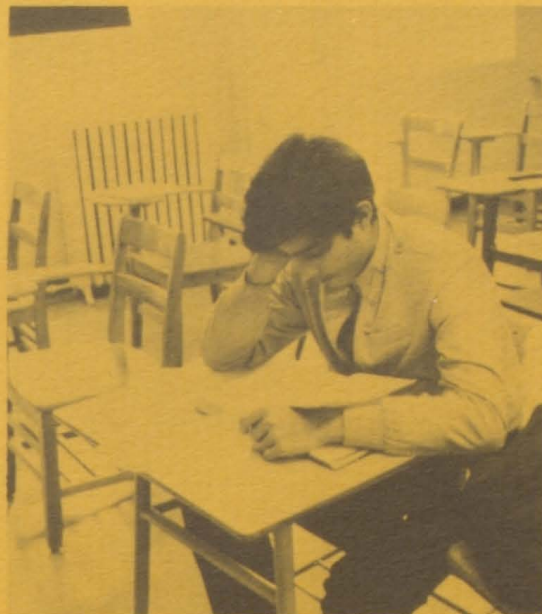

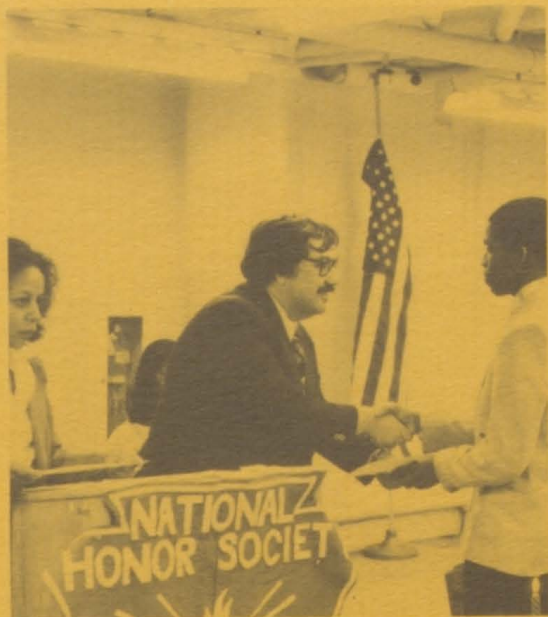

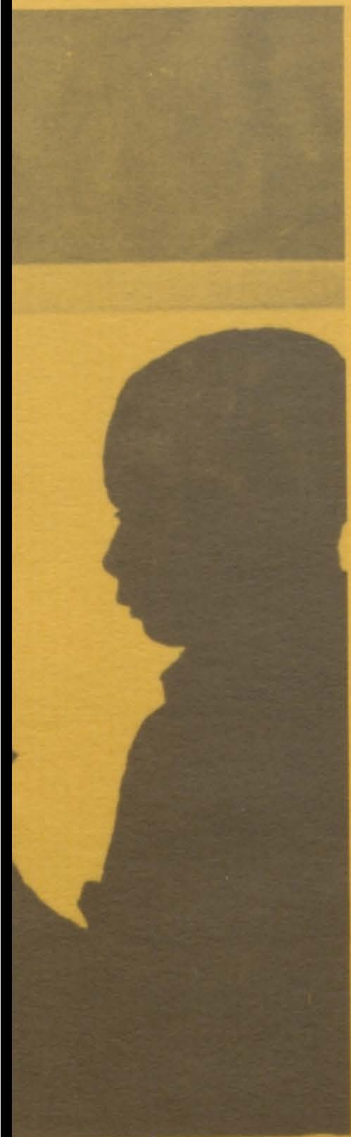

The Spirit of the Phoenix

Is the force behind
University High
School.

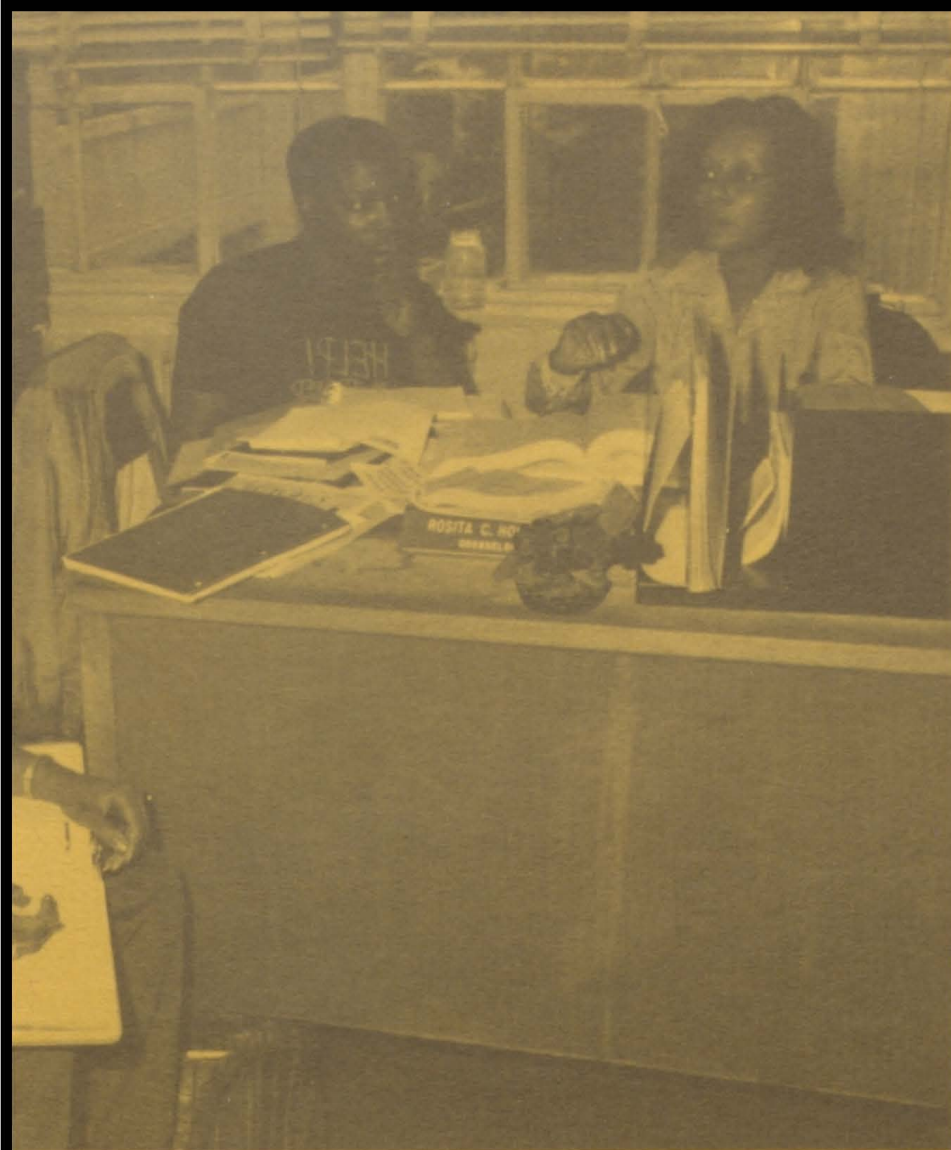

For like the sun,
Its light has given
us energy,
The strength to
grow to maturity

As a priest, parent, or patron,
Strenghtens us in times of trouble
The spirit of the Phoenix
Helps us to help others and
ourselves
Enables us to gain quiet
confidence
And better understand our
fellow humans . . .

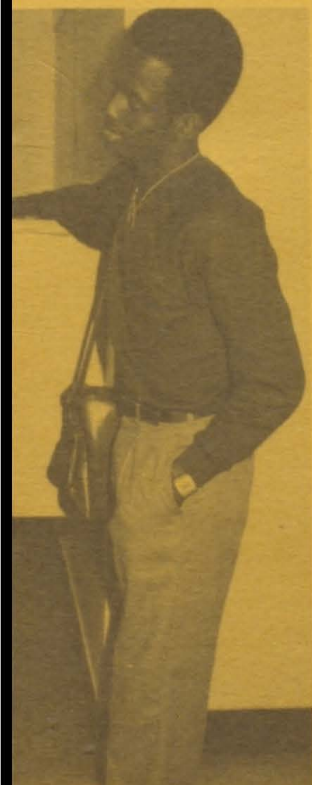

As a researcher uses an
encyclopedia
To gather a wealth of
information from its
pages,
We have garnered the
knowledge of our
teachers
Who impart their wealth
under the guidance of
the Spirit of the Phoenix

The Spirit of the Phoenix
Has unified University High
In the way that Brother Malcolm X
And Dr. King wanted All Men
unified . . .

As the Holy Spirit inspired
St. Thomas à Becket and
Pope John Paul II
In their fight for religious
freedom,
The Spirit of the Phoenix
Has imbued in us the
perseverance to prevail in
our struggle for
independence
And we'll put up a stubborn
fight
Whenever we are
threatened . . .

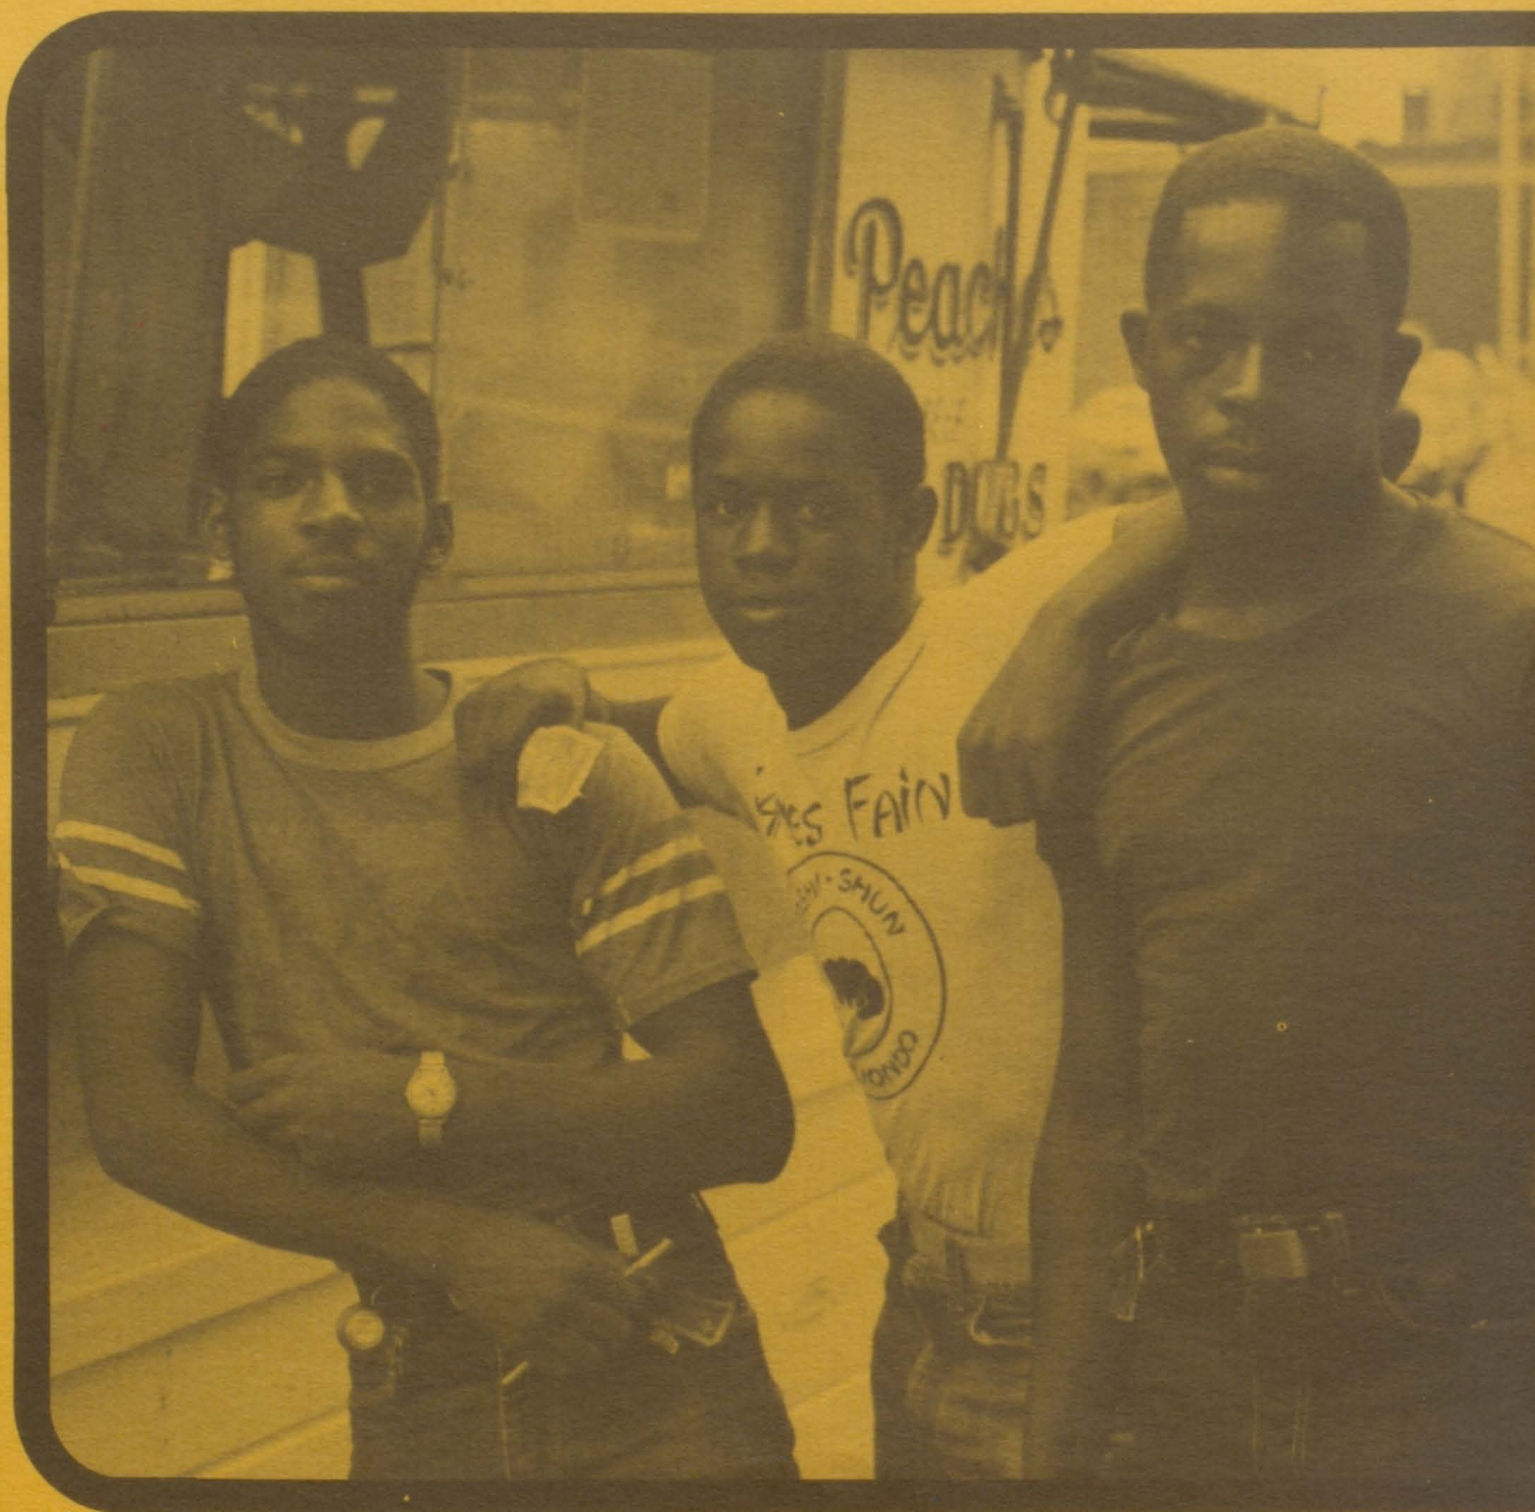

As a close friend is there

To encourage, advise, and share dreams,

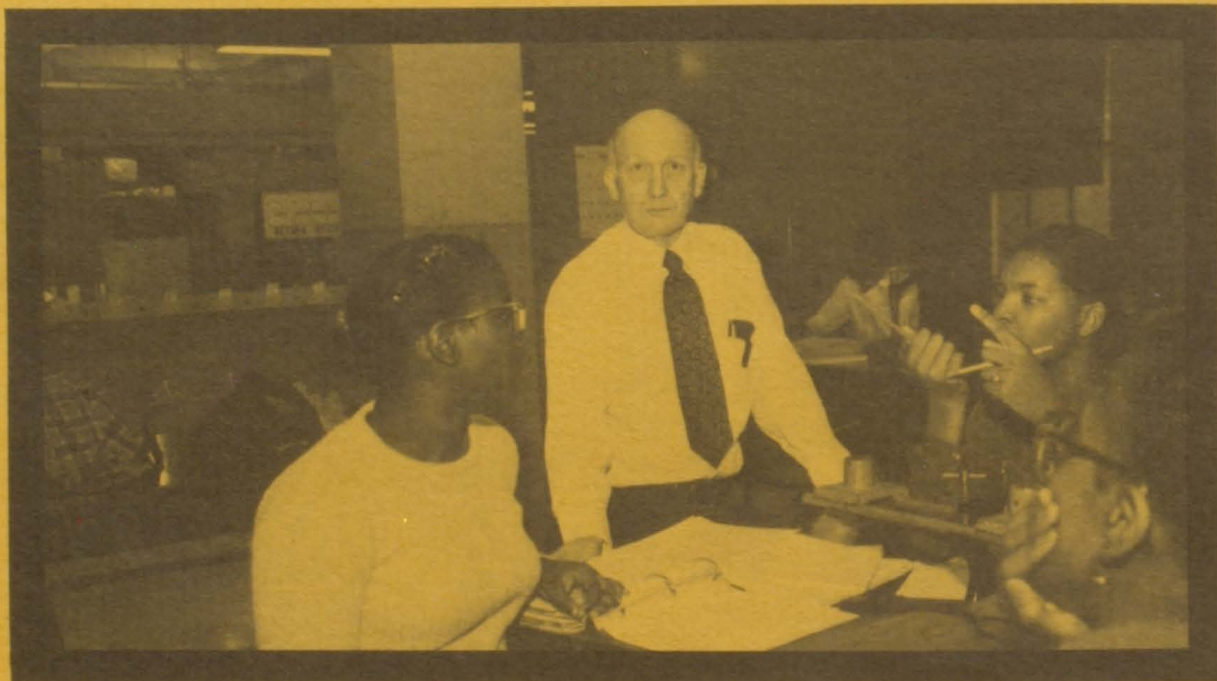

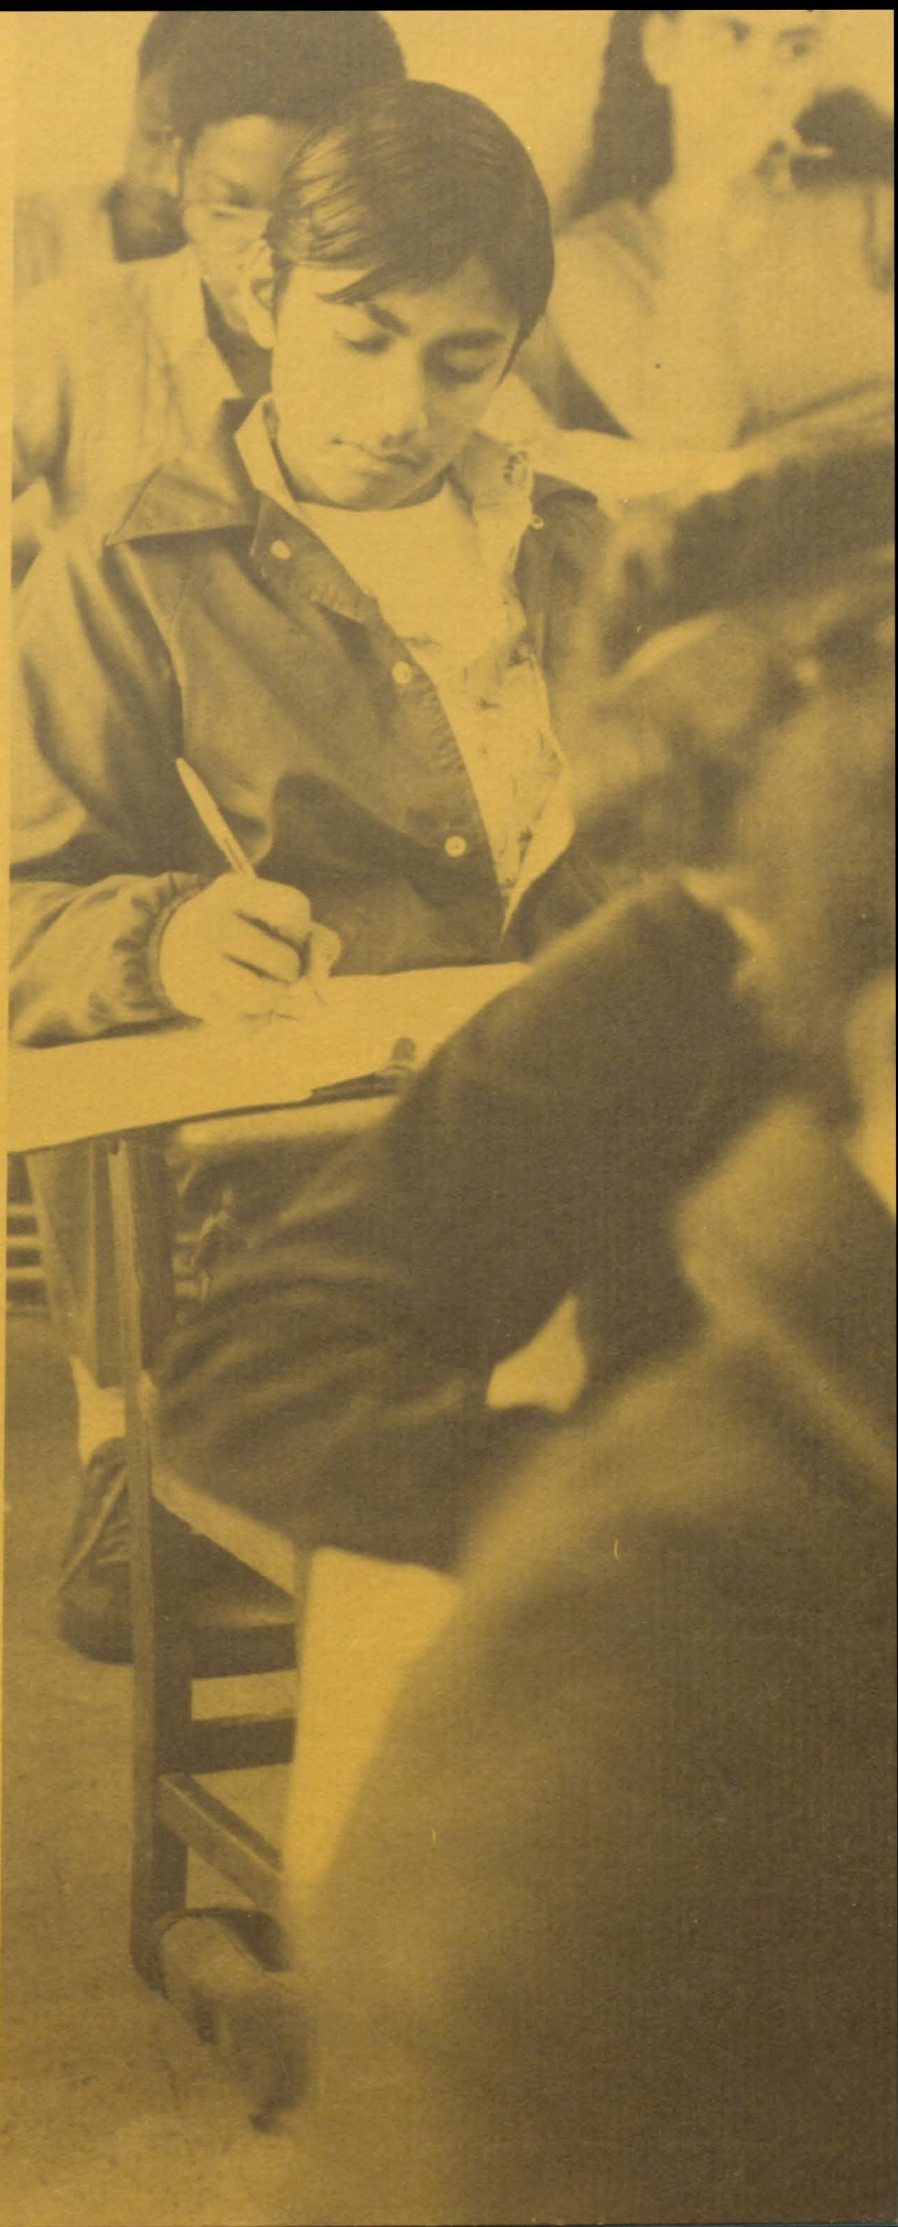

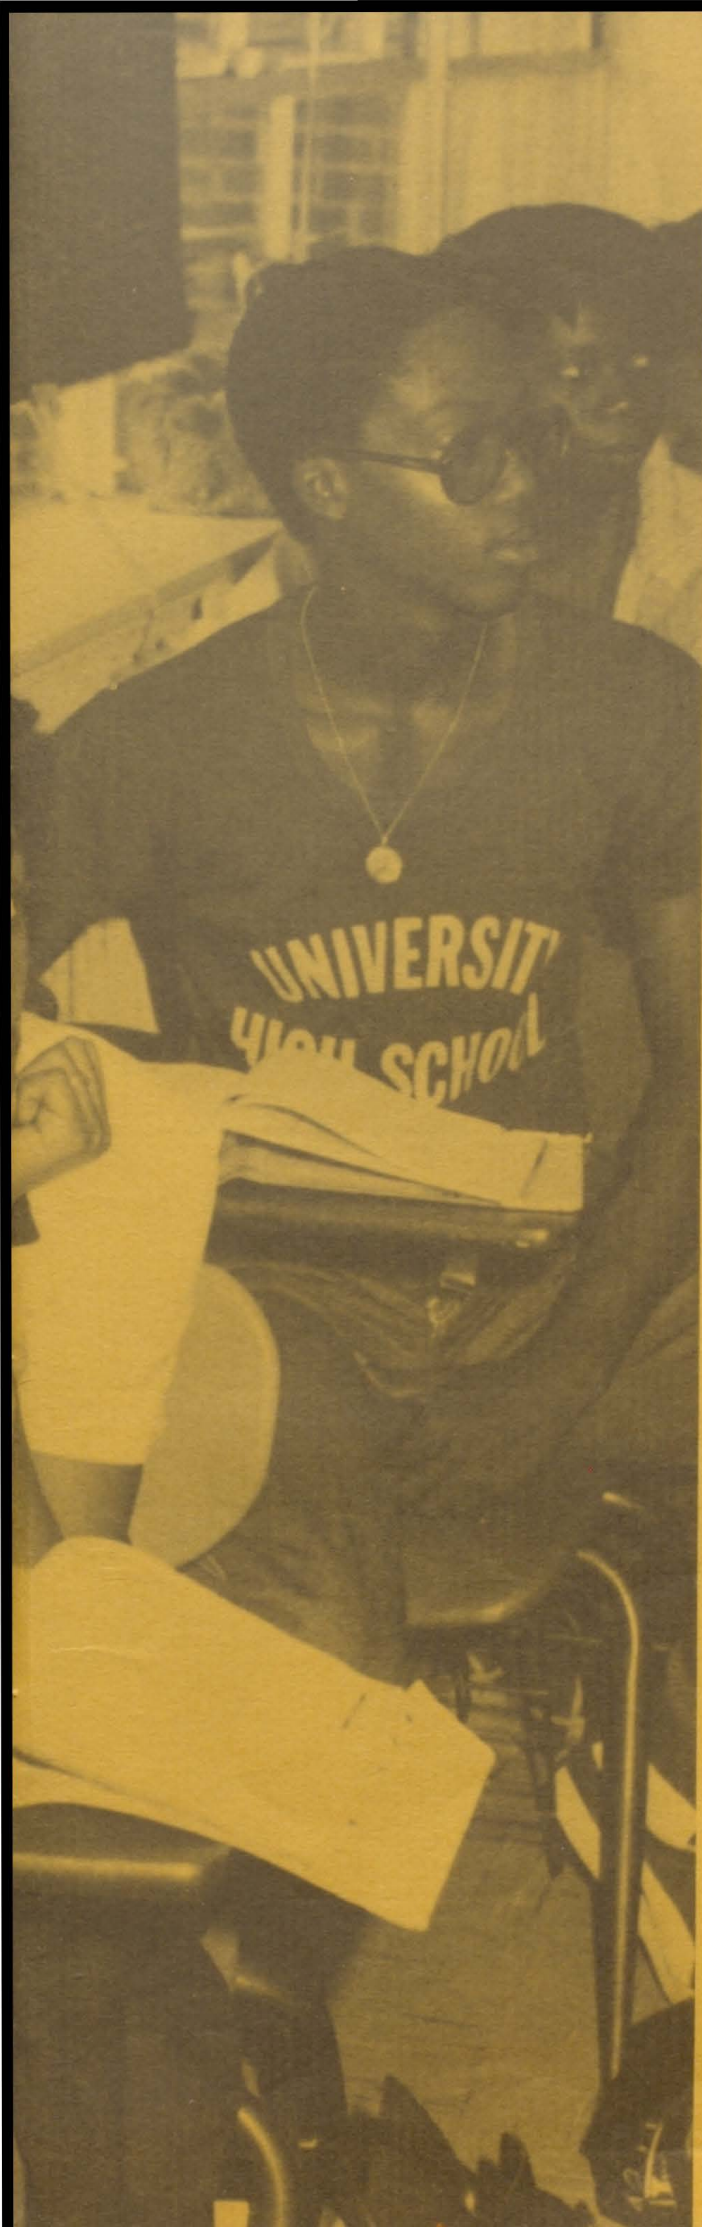

The Spirit of the Phoenix is ever-present
To help make those, our dreams, come true

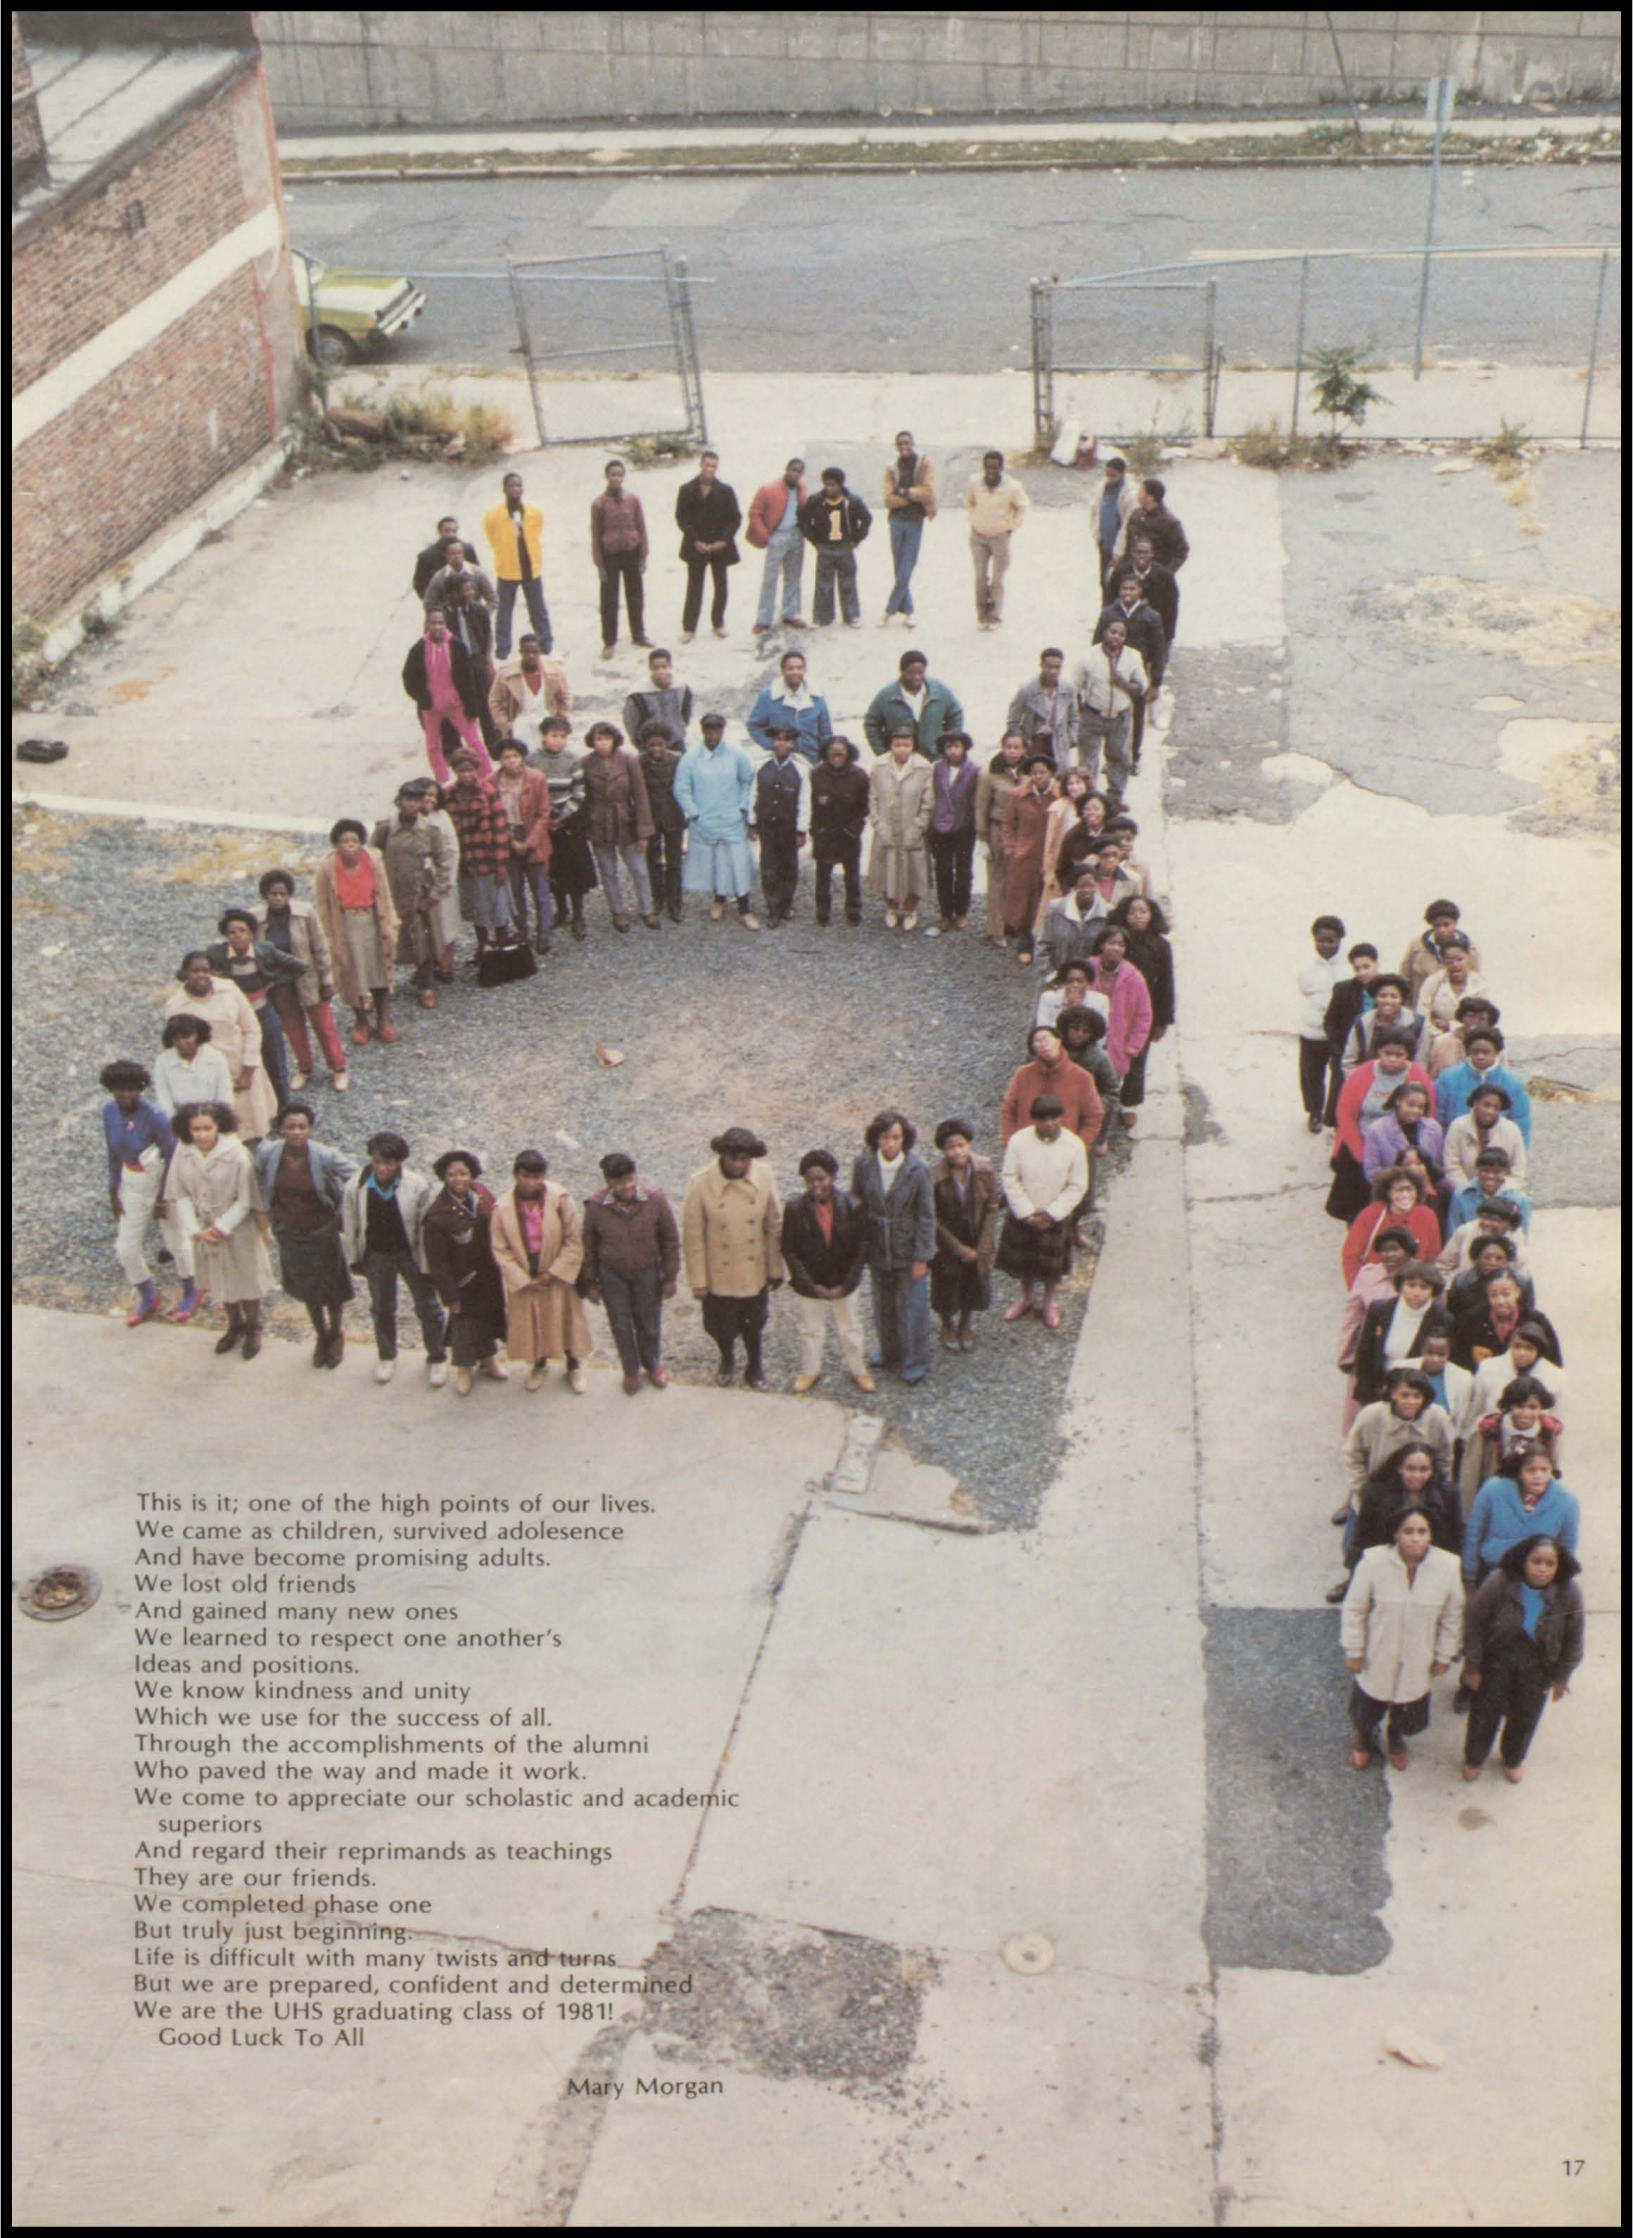

The Spirit of the Phoenix
does many things.
It Nourishes, Comforts,
Strengthens, Teaches,
Unifies, Inspires,
Perserveres, Fulfills,
Counsels

In Essence,
The Spirit of the Phoenix is People
caring about People!

This is it; one of the high points of our lives.
We came as children, survived adolescence
And have become promising adults.
We lost old friends
And gained many new ones
We learned to respect one another's
Ideas and positions.
We know kindness and unity
Which we use for the success of all.
Through the accomplishments of the alumni
Who paved the way and made it work.
We come to appreciate our scholastic and academic
superiors
And regard their reprimands as teachings
They are our friends.
We completed phase one
But truly just beginning.
Life is difficult with many twists and turns.
But we are prepared, confident and determined
We are the UHS graduating class of 1981!
Good Luck To All

Dedication

We have known Mr. Ronald DeMiglio for four years. As our English teacher during our sophomore and senior years, he has given us a combination of responsibility and support which leads to maturity. He has challenged our minds to think independently, always with the expectation that we can and we will. Because of this, we are willing to put forth the extra effort to better ourselves. He is always there whenever we need guidance. Whether it be for academic or personal matters, we know that he will make every effort to get to the heart of our problems, and together, we can alleviate them. Mr. Donald DeMiglio believes in us.

Mr. Ronald DeMiglio

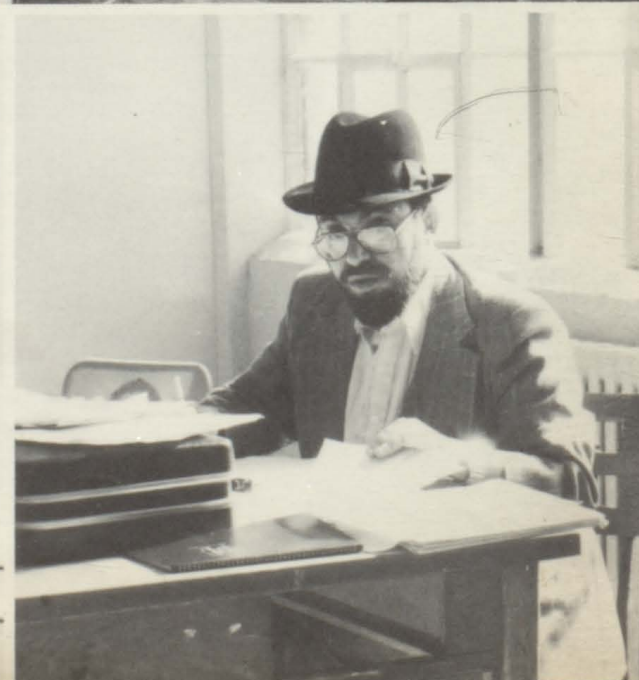

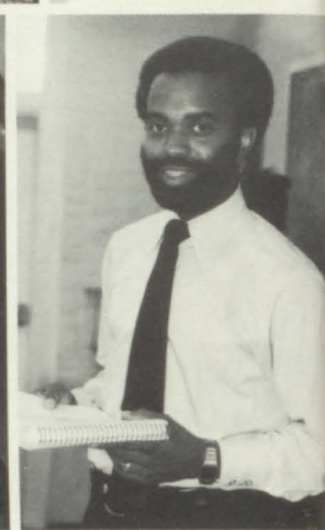

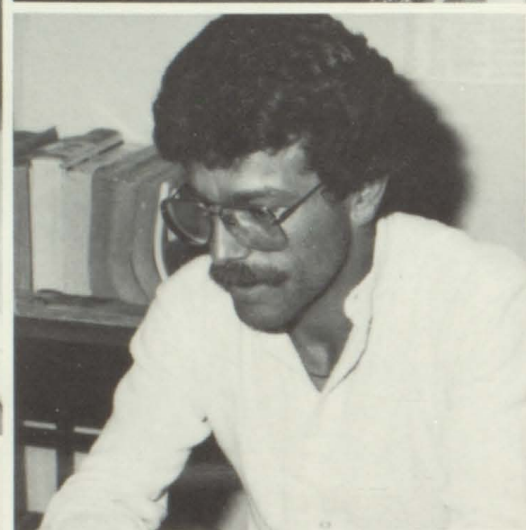

Fine Arts Teacher, Mrs. Gwen Jackson, is more than our art teacher and class advisor. She is a witty person who enables us to be open with her. As an art teacher, she tries to instill in us, appreciation for the asthetic things in life. Museums, theatres, and art exhibitions have all been included in our learning experience.

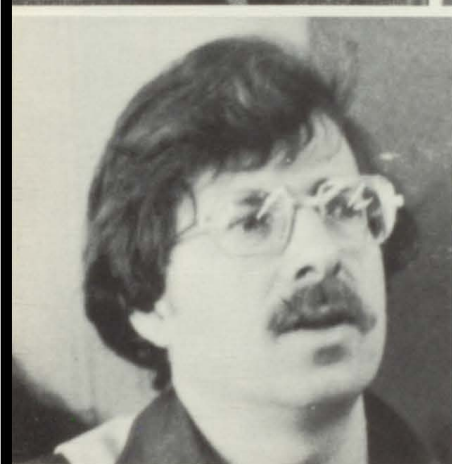

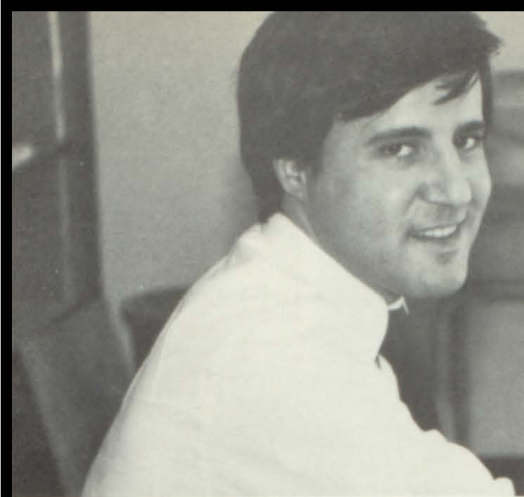

Mrs. Jackson volunteered to be our senior class advisor and through her dedication united the class. She has worked arduously in organizing fund raising events which made it possible for the class of 1981 to have more than an academic year.

We the senior class of 1981 would like to extend our deepest appreciation to Mrs. Jackson for giving her time, effort and endless understanding.

Mrs. Gwen Jackson

Dear Senior Class,

I am delighted to have this opportunity to speak to you about your graduation and the beginning of your career in college or some other post secondary educational experience. 1981 will be a very critical year for all Americans. Inflation is a very serious problem. Social programs designed to help people will now take a back seat to non-humanitarian issues. The entire form of government will change. These will not be easy times. times.

Attending college is a mind expanding experience. It is also a serious preparation for acquiring the skills necessary to help you find a job in the labor market. We need your serious re-dedication to excellence in college so that the community and the nation can reap the fruits of your labor.

Best wishes for an exciting and challenging college, graduate and or professional school experience.

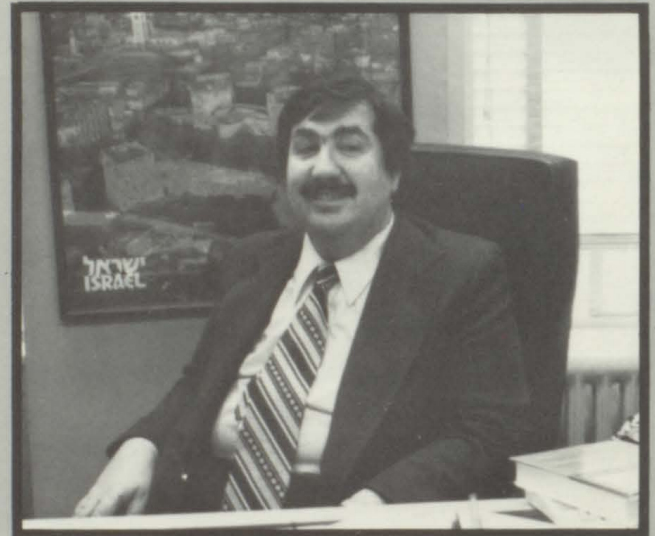

Willie J. Young Principal

To the Seniors,

The major objective of University High School is to prepare each of you for a successful career at the college or university of your choice. The fact that we have achieved this objective is attested to by the fact that over 90% of you will be enrolled in college by September. Our basic philosophy has been to instill in each of you the fact that life is too short to wait until opportunity knocks. Given a strong academic foundation, we hope that you will create your own opportunities. Prayerfully I say "Vaya con Dios", Go with God. Remember, always we will be here to help - Don't forget us, we will never forget you.

Joseph Malanga Vice Principal

Dear Seniors,

I want to thank the students of University High School for contributing to the happiness and satisfaction I have always felt in my work with the students of the Newark school system.

Although I have attempted to give to you my best effort to share with you my own joys in learning, I have always thought it was never quite enough. I have continued to receive more than I could ever give you.

In my effort to repay the joy you have given me, I am reminded of a fragment of a poem by Langston Hughes:

We should have a land of trees
Bowed down with chattering parrots.
Brilliant as the day,
And not this land where birds are gray.

It is my hope for you, the graduating class of University High School 1981, that when you look back on your high school days, you will remember "A land of trees ... Brilliant as the day". And that in some small way I will have helped to open to you that land of brightly plumed birds which sing a happy song to carry with you through life.

Mrs. Joelle Zois

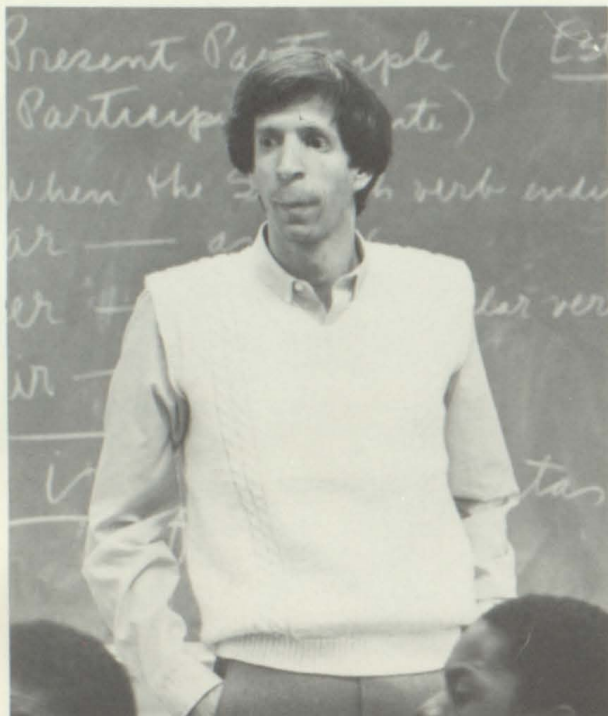

Senior Team - Faculty

Be always displeased with what you are, if you desire to attain to what you are not; for where you have pleased yourself, there you will abide.

But if you say, 'I have enough', you will perish. Always add, always walk, always proceed. Neither stand still, nor go back, nor deviate.

I Am A Phoenix
 My mind is like a bird's flight
 With wings continuously expanding.
 Soaring across the universe
 It collects food for thought and
 Enthusiastically dives into new challenges.
 And after a short rest, it moves
 to another branch of knowledge;
 For with knowledge even
 Stars are reachable, and our
 Goals will be fulfilled

I Am A Phoenix

UHS is known for its rigorous curriculum. The junior class has maintained that rigorous, full and academic program. We have to pass courses such as physics, social science, English, Spanish and French.

This year has been one of great importance. Our junior class has participated in seminars and trips concerning our future plans and college goals.

As juniors we feel it is extremely important to present a mature attitude towards all of our fellow classmates especially the underclassmen and teachers, creating an atmosphere of love and respect.

We have chosen UHS to be our source of education because we feel that it could best prepare us for the future. In order to be well prepared for the future, the curriculum has to be very challenging and it is.

As freshmen we were challenged with many responsibilities. We were exposed to Shakespeare, mythology and world history. We were given a solid foundation in Algebra and we began to master a language that was not our own.

In our sophomore year, we continued to strive for the best and have better adjusted to the exacting standards of UHS. We will work harder this year so that we may reach our goal and fulfill the need to be individuals.

We have learned many new algebraic concepts and techniques. We learned how to apply what we have mastered to solve problems. Our social science exposes us to English and American History. Our experiences in biochemistry include a review of the cell as well as cellular process, the study of atoms and elements, and the study of heredity and chemical reaction. In English we will read about Carpe Diem poets such as Herrick and Lovelace. We will also read **Macbeth** and **The Crucible**.

As we end our sophomore year, we will cherish our many memories, but we must also look forward to the next two most crucial years of our lives.

Freshmen, I Suppose

Freshmen. That's a nice word. What does it mean? Webster's Dictionary has freshman as meaning newcomers. Newcomers imply new people. New people bring new ideas. Not immature ideas, new ideas. A kind of freshness that can only come from a young mind.

There are those who believe that freshmen are nobodies, and they have nothing to contribute. How wrong! We have as many things to contribute as our new, refreshing ideas. We have a multitude of other traits: intelligence, varied skills, the way we can bond together swiftly and efficiently in a time of crisis, to name a few. Helping us, instructing us, assisting us in our studies are our teachers:

Mrs. Fabbrini, the talented music instructor; Mr. Green, the concerned Algebra I teacher; Mr. Hammerman, the demanding biology instructor; Mr. Lowenstein, the dedicated social science instructor; Mr. Slavinsky, the understanding English teacher and our very special language instructors. With the guidance from these people, it is not just a possibility, but a positiveness that we will show our 'colors' yet.

Gifted And Talented Class Of 1981

The Eighth Grade Graduation Class of 1981, is the second graduating class of the Gifted and Talented Program at University High School.

Although this marks the students' completion of two years of work at University High School, the program itself was begun three years ago in September of 1978, in an attempt to create and offer an advanced curriculum for seventh and eighth grade students who are academically or artistically talented in the city of Newark.

The program has been quite successful. The students have really had a great opportunity here at University High School to be part of one of the best schools in the city. They have been exposed to advanced courses of study in all areas of learning both academic and social.

The high school atmosphere has been an invaluable experience. Students have had the opportunity to attend classes taught by the high school faculty in foreign languages, art, music and physical education in addition to the classes taught by the regular seventh and eighth grade faculty: Ms. Cicalese (Math), Mr. Moore (Science) Mr. Richardson (English) and Mr. Tortorello (Social Science).

The acceptance of the eighth graders has been exceptional and quite evident among the upperclassmen. Being able to relate to students who are older and more mature has been an educational experience in itself.

Our graduates have taken some memorable trips and have had to assume the responsibility of fund-raising activities to help defray costs. Teamwork and cooperation were learned firsthand along with a sense of pride and commitment.

You can be assured that our eighth graders will be ready for any high school situation, activity and experience whether continuing at University High School or at any other school of their choice.

Congratulations, Eighth Grade Graduates of 1981!!!!

SOCIETY'S CHALLENGE

To My Fellow Graduates:

Life continues after 81',
Don't lie around, be lazy or live for fun;

Take on a challenge and be optimistic,
Help mankind and be altruistic;

Live for a purpose, live for love,
And, if you may prosper
Thank the God above;

Don't be selfish if you become rich
Don't give up if you become poor,
Don't concentrate on insignificant matters
There are many other things that life has in store;

Think: Money is only green paper
Onto which white men put much value,
They built our nation with profit in mind
Not for everyone, only a few;

Don't become a product of society's conditioning
See the world as it realistically is,
Things have to change, beginning with a critical
view
This is a big job that we have to do.

Khadijah Yasin

LOOK TO THE LIGHT

NO DEEP DARKNESS IN THIS
WORLD
CAN OVERCOME THE LIGHT
A SINGLE CANDLE FLAME WILL
BURN
AGAINST THE DARK NIGHT.

LET ALL THE WORLD OF
DARKNESS COME
RESENTMENTS, ENVIES, FEAR,
THEN LIGHT THE SINGLE FLAME
OF LOVE
THE DARKNESS DISAPPEARS!

BY BARBARA SHELLS

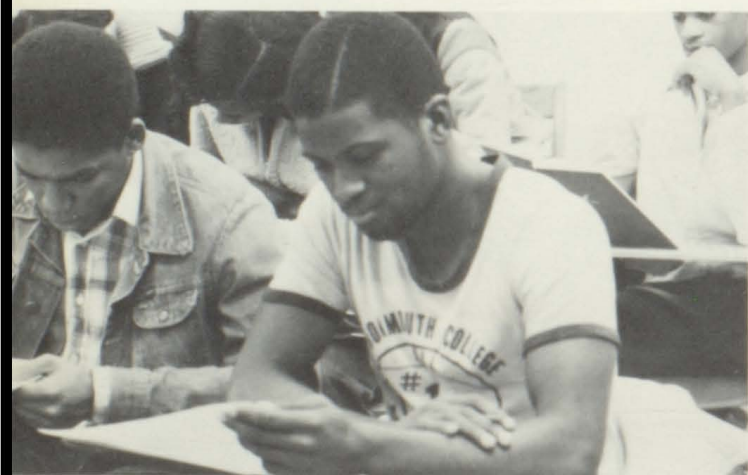

I CAN THINK AND I CAN
DREAM
I CAN LIVE AND LEARN
AND LEARN TO LIVE A FULL LIFE
ON A BEAUTIFUL PLANET.

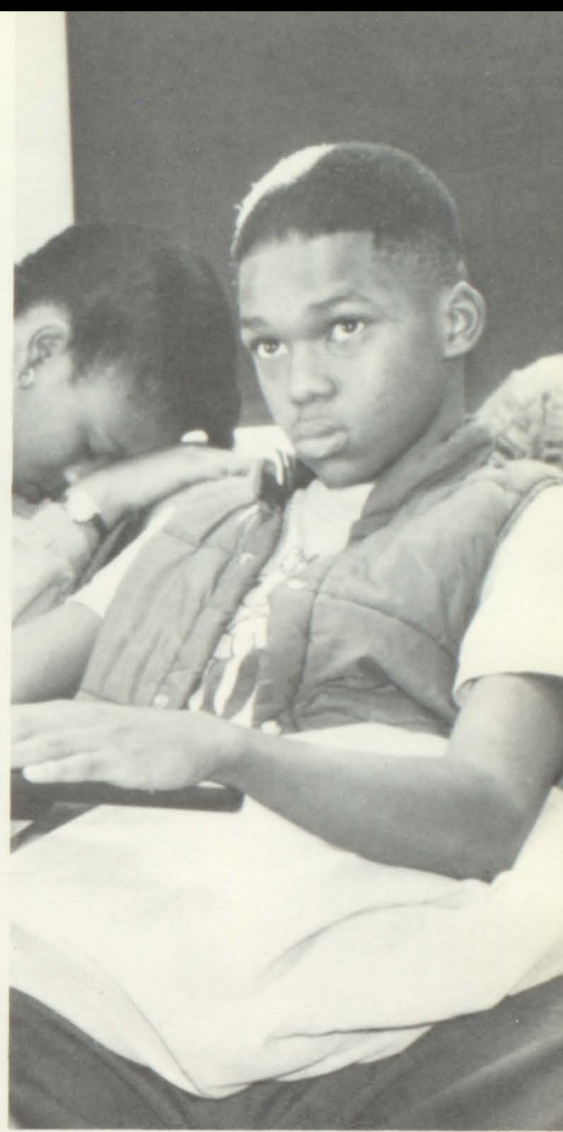

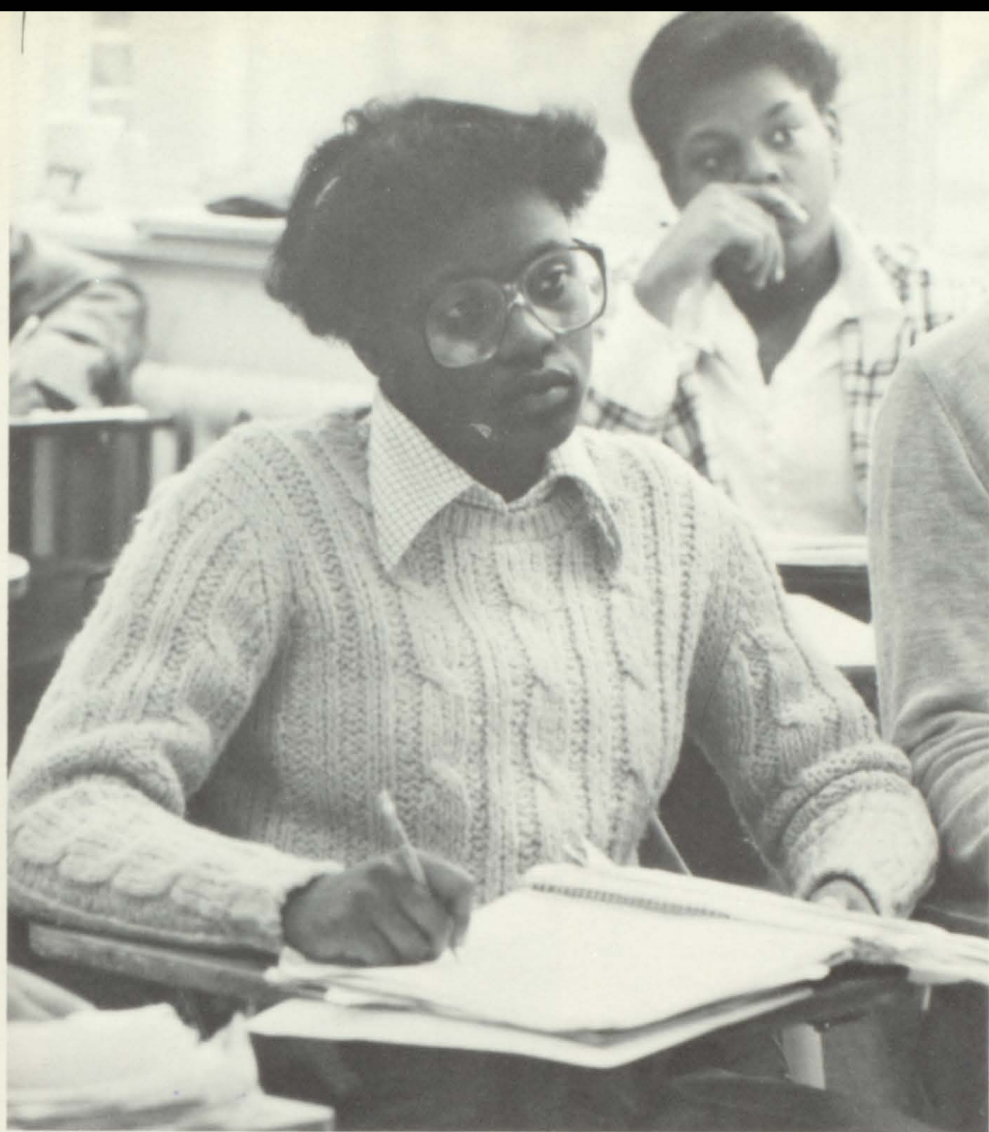

PLEASE LET ME HAVE MY PLANET
AND MY MIND
UNPOLLUTED, UNALTERED BY
YOUR MADNESS.
I WILL SHARE FREELY AND
GLADLY MY DREAMS.
OPEN YOUR EYES.

Many Moods Of A Classroom

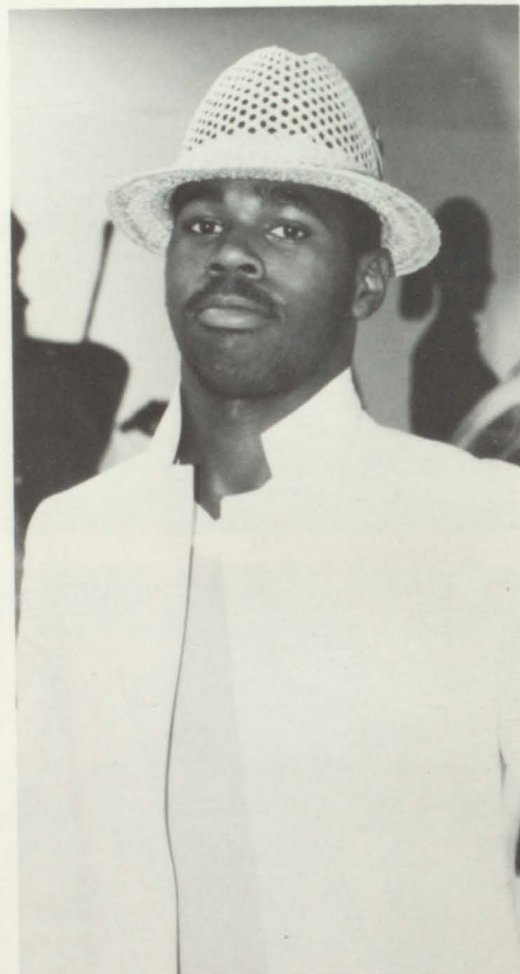

Our Day

When will our day come?
 The day of joy.
 The day of happiness.
 The day of triumph.
 When will these days of
 bitterness,
 These days of hardship,
 These days of pain end?
 When will it be Our Day?
 Will it be tomorrow?
 Or will it be the day after
 That
 Today.
 Today will be our day.
 We must unite.
 Become one.
 Now is,
 Our Day.
 Kelly Yvonne
 McQuiller

I would like to express my gratitude to University High School for its excellent college preparatory curriculum and its dedicated faculty. They enabled me to seek an invaluable learning experience that still has special value in my life.

I attended the Encampment for Citizenship program for six weeks during my senior summer in Washington, D.C. with 51 other students coming from all over the world, with diverse cultures and backgrounds. Living with these strangers was a unique situation in itself, almost Utopia, completely opposite to our present society. Everyone learned and grew together in harmony, with sharing and trust as the most demonstrated character traits.

Some of the topics discussed were values, competition and its affects, media, capitalism, racism, sexism and world foreign policy.

Upon my arrival, the Encampment accepted an ignorant, conditioned product of society, and upon departure, the Encampment released an aware, mature, altruistic critic of society.

Khadijah Yasin

"I will take each man and woman of you to the window, and my left arm shall hook you round the waist, and my right shall point you to the endless and beginningless road. Not I-not God-can travel this road for you".

Walt Whitman
